

## **CONDITIONS FOR PROPOSED SEISMIC OPERATIONS**

---

**Purpose:** To establish conditions for any person or company wanting to conduct seismic operations in the municipality.

---

- The applicant shall obtain the consent of each affected land owner in the municipality prior to the commencement of any work.
- No movement of vehicles will be permitted on municipal roads or right of ways during adverse road conditions.
- Where traffic control is necessary, the applicant shall be responsible for traffic control arrangements in accordance with the advice and consent of the council.
- The contractor shall pay and hereby undertake to pay the municipality on demand such sum as may be required to remedy any damage caused by the geophysical operation to the municipality's roads, bridges, or culverts,
- The applicant shall save harmless and keep indemnified the Rural Municipality of Bone Creek No. 108 from and against all actions, causes, claims, demands, losses, costs, damages, and expenses which may be incurred by or made against the Rural Municipality of Bone Creek No. 108 by reason of any reason whatever in respect to the matters hereinafter mentioned and/or implied.

Policy Adopted 2013
